**VOLTA RESOURCES ANNOUNCES FILING OF FINAL SHORT FORM PROSPECTUS AND
THE KIAKA NI 43-101 REPORT**

Toronto, ON – July 15, 2010 - Volta Resources Inc. ("Volta" or the "Company") (TSX:VTR) announces that it has received a receipt dated July 14, 2010 for a final Short Form Prospectus filed with the securities commission in each of the provinces of Alberta, British Columbia Manitoba and Ontario, relating to its previously announced private placement of special warrants with a syndicate of underwriters led by Cormark Securities Inc. and including GMP Securities L.P., Wellington West Capital Markets Inc., Rodman & Renshaw, LLC and M Partners Inc. (collectively, the "Underwriters") (See press release dated June 21, 2010). The Underwriters had purchased 22,258,000 special warrants on an underwritten bought deal private placement basis, at a price of \$1.55 per special warrant for aggregate gross proceeds to the Company of \$34,499,900. Each special warrant entitled the holder thereof to receive, without payment of additional consideration, one common share of Volta. As a result, the 22,258,000 common shares issuable upon exercise of the special warrants are now qualified for distribution to the public.

The proceeds of the offering will be used for general working capital purposes including the advancement of the Kiaka Gold Project.

Volta has also filed a NI 43-101 "MINERAL RESOURCE ESTIMATE OF KIAKA GOLD PROJECT, BURKINA FASO" report relating to its previously announced resource. (See press release dated June 29, 2010). The report, prepared by SRK Consulting (UK) Ltd and the Short Form Prospectus can be found on SEDAR.

Volta is a mineral exploration company primarily focused on becoming a leader in the identification, acquisition and exploration of gold properties in West Africa. The Company is currently fast-tracking its flagship Kiaka Gold Project, located in Burkina Faso, towards a development decision.

Forward Looking Information Caution:

This press release presents "forward-looking statements" within the meaning of Canadian securities legislation that involve inherent risks and uncertainties. Forward-looking statements include, but are not limited to, statements with respect to the future price of gold and other minerals and metals, the estimation of mineral reserves and resources, the realization of mineral reserve estimates, the capital expenditures, costs and timing of the resources, the

realization of mineral reserve estimates, the capital expenditures, costs and timing of the development of new deposits, success of exploration activities, permitting time lines, currency exchange rate fluctuations, requirements for additional capital, government regulation of mining operations, environmental risks, unanticipated reclamation expenses, title disputes or claims and limitations on insurance coverage. Generally, these forward-looking statements can be identified by the use of forward looking terminology such as “plans”, “expects” or “does not expect”, “is expected”, “budget”, “scheduled”, “estimates”, “forecasts”, “intends”, “anticipates” or “does not anticipate”, or “believes”, or variations of such words and phrases or state that certain actions, events or results “may”, “could”, “would”, “might” or “will be taken”, “occur” or “be achieved”. Forward-looking statements are subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of Volta to be materially different from those expressed or implied by such forward looking statements, including but not limited to: risks related to international operations, risks related to the integration of acquisitions; risks related to joint venture operations; actual results of current exploration activities; actual results of current or future reclamation activities; conclusions of economic evaluations; changes in project parameters as plans continue to be refined; future prices of gold and other minerals and metals; possible variations in ore reserves, grade or recovery rates; failure of equipment or processes to operate as anticipated; accidents, labour disputes and other risks of the mining industry; and delays in obtaining governmental approvals or financing or in the completion of development or construction activities. Although the management and officers of Volta believe that the expectations reflected in such forward-looking statements are based upon reasonable assumptions and have attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. Volta Resources does not undertake to update any forward-looking statements that are incorporated by reference herein, except in accordance with applicable securities laws.
